## NEW MEMBERS REPORT

By GEN Linda M. Olson

I hope to be able to bring you a weekly summary of the new members by region as processed thru the CFO's office this new year. This report is for the week of May 17th through May 24th. These are only members with new SCC numbers, it does not include renewals. This also does not include any memberships that are holding for clarification or additional information/payment, etc. If you notice that you recruited new members, but your total Regional memberships down, it is due

to members who have failed to renew. Check your rosters and see who is due to renew their memberships and give them a reminder. It may have slipped their minds.

## RENEWALS FOR OTHER PERSONS

By GEN Linda M. Olson

Happy New Year to each and every one of you. I hope this year is all that you wish for in every way. Speaking of wishes, I have one that I would appreciate each of you attempting to make happen.

When you are renewing for someone other than yourself, please place that person's name in the second section of the renewal form. I believe it is titled as the Shipping name and address. This will allow me to locate

the actual renewal much faster and to process the payment without as much delay.

## VRC REPORT - Program Operations

By COMM Scott Gibson

Hello Everyone, welcome to this month's issue of the newsletter.

On behalf of our Regional Awards Director, I wanted to thank everyone who worked with us this year to meet our earlier than normal annual awards submission deadline. With our Summit being in April, our judges needed to have the submissions earlier to properly score the entries and produce the physical awards and certificates in time to be given out. I'm happy to say that participation was at an all time high this year and we've received award submissions from chapters that don't normally take part in the program. I can't wait to see the results!

As I'm writing this, we're reeling from the news of Leonard Nimoy's passing. To say that Mr. Nimoy has had a monumental impact on all our lives would be

a massive understatement. After all, he is one of the reasons that we came together as Star Trek fans and as a STARFLEET family. I'm sure that we all have our own personal Nimoy stories and cherished memories, and I won't bore you with mine here, but I did want to take this opportunity to make a public thank you and farewell to Mr. Nimoy:

Goodbye, Mr. Nimoy. Your contributions to the world and our lives have been immeasurable. You were much more than an actor, director, photographer, or poet. You helped create and nurture a universe that brought us all together, despite differences, into an extended family. Your character of Spock gave voice to every individual that felt different and alone and made them part of a community.

You have been, and always shall be, our friend.

Hailing frequencies, closed...

## SPACE CAMP REPORT

By VADM Darlene Harper

This has been a long, tough, snowy, cold winter with storm after storm hitting all over the region. Here is looking to spring and of course with the spring the Region Summit. Hopefully the weather will cooperate with those traveling to Indianapolis, IN for the 1,001 Orion Night's Summit on April 10.

The passing of Leonard Nimoy has left many if not all of us feeling as though a

beloved member of our family has gone to the final frontier. Our hearts and thoughts go out to his family and friends. I have seen many posts in social media that a star has died but I believe a new star has joined the galaxy and the galaxy become brighter for his presence.

## SENIOR VRC REPORT

By VADM Darlene Harper

Space Camp has some changes coming, Jason Schreck has joined the committee and we are working to better explain the program and the opportunities it offers our young people. The main goal is to get the younger generation more interested in science and space and to also point out how important school is. We need to let the next generation that we interested in their future.

## MEDIEVAL TIMES

By CAPT Carnell Eubanks

Once again our chapter has had an encounter with the Q Continuum. This time on a whim he remarked how much like the Klingon Empire our civilization used to be. To pro this point we were whisked through the passages of time to a Medieval Castle to witness the games of honor and chivalry of Earth's distance past. So not to change history Q alter the perception of the other guest so they would see us as fellow Lords and ladies of the realm. To enhance the experience we were give side seats and STARFLEET'S honor was represented by the Blue knight who won the day. Truly a remarkable experience.

## PUBLICATIONS OFFICER

By MGN Michael Timko

Hello Region One!

Well, its been a trying few months with the passing of my father. Its sad to say that now I understand what others say when they lose a close loved one. However, things are getting better.

I'm finally getting the estate affairs in order. The only thing standing in my way now is the estate return. I get to tackle that next month.

To get us back on schedule we will be accepting submissions for the next issue until July 15th, 2015 and the next issue will come out August 30th, 2015. That gives everyone 45 days to get new submissions in for Issue #3.

Jerry Holden to quote Mr. Worf!  
"I am not a Merry Man!"

CO Carnell Eubanks congratulates to the Blue Knight on his victory and thanked him for representing STARFLEET in the tournament!

## USS HEIMDAL LAUNCHES 2015 SPACE CAMP PROGRAM

By ADM Linda Smith

On February 2nd, the USS Heimdal launched her 2015 Space Camp Scholarship Contest in local middle schools. A packet was sent to each participating school with rules for entering the contest. Each school has a representative that will collect essay entries on "Why I Want to Go to Space Camp" & return them to the Heimdal's Space Camp Committee for judging. A winner will be chosen & announced no later than April 6, 2015.

Willy & Linda Smith attended the Civil Air Patrol cadet meeting on February 23 & Linda gave a presentation to the cadets

about the Space Camp Contest, inviting the cadets to enter essays in the contest. Most of the cadets are home schooled kids & it is a delight to be able to include them in our Space Camp Scholarship Contest again this year. They were so eager to find out about the contest & to ask questions.

This year the Heimdal's Space Camp Scholarship has expanded to include Space Camp, Aviation Challenge Camp & Robotics Camp - all on NASA's Space Camp campus in Huntsville, AL & part of the Space Camp Program. The stu-

dent with the winning essay will have a choice of camps this summer, which is just so cool.

Heimdal members are always thankful when we make enough money a tour Annual Charity Auction in August to sponsor our 10 charities AND make this camping experience a reality for a local student.

All arrangements for the winning student will be made by CO, Linda Smith. The cost to the chapter for the 6 day trip for the winning student is \$1379.00.

## SAYING GOODBYE TO A LEGEND

By FCapt Carnell Eubanks

I write this shortly after learning of the passage of actor Leonard Nimoy. His acting ability touched many of us over the years. It is a human trait that we identify actors with the roles they play and have difficulty separating the man from the stage presence.

While I did have the privilege to meet Mr. Nimoy on a couple of occasions, I truly only knew him through the roles he presented, it would be illogical to say otherwise. Still some of those roles have had an enduring impact and in some ways have shaped the way I view the world. Whether he was playing a holocaust survivor or our beloved Mr. Spock. While these roles are illusion they touch upon the events that were shaping the world and helped us to understand them and reinforce a vision of mankind that was

bright despite our failings. His role as Mr. Spock touched on many themes as I watched the reruns of Star Trek growing up. From the broader concepts such as that of the cold war, diversity and equal treatment. To themes that all children deal with somewhat! That you can endure not being accepted by peers as a child but that there is hope as you and they mature in life, gets better. That parents and children

### Memories of Nimoy

- Linda Smith

Leonard Nimoy was always very special to me because I had a terrific crush on him as the character, Spock. I grew up with him & that crush & my mom had lived many years with me as a Spockaholic.

In the late 1980s I took my mom with me to see Mr. Nimoy in Washington, DC where he was giving a presentation at a theater. She & I got good seats in the packed theater & I was very excited.

As the lights were dimmed, a man stepped onto the stage & introduced Leonard Nimoy. Just as he was about to step on the stage, my mom who had lived with my Spock love for so many years, grabbed my arm & said very loud, "I feel like I'm about to see God ...". People sitting close to us laughed out loud. It was a special moment that I shared with her made possible by my love for Mr. Spock.

- Janice Graham

Way back when Leonard's first book of poetry ("You and I") came out, he went on a promotion tour and happened to appear at a college near me. I went (of course!) and even had a decent seat. While I was waiting for him to come out on stage, I looked around at the others who filled the auditorium. They were talking quietly with those around them; a few near me spoke to me (I didn't know them, and yet, I did) and it struck me how so many different people

had come together for and because of him.

Finally after a short introduction (like we didn't know who he was and what he'd done), this tall, slim man came out to center stage, stood for a moment waiting for the applause to die down; it started again almost immediately when he lifted a hand in the so-familiar split-V of the Vulcan salute. He didn't have to say a word and wouldn't have been heard if he had. Finally he gestured for us to quiet down but he was grinning. He looked out at us, looked around the room. Then he said, "Okay, if you'll let me talk about what I came to talk about for 15 or 20 minutes, then we'll talk Trek. Okay?" Cheers and applause.

He spoke of the book, and how it came about. He even read some of it while we listened in awed respect. Leonard Nimoy was reading poetry he wrote, to us. It touched me, as he had so many times in my life.

True to his word, after about 20 minutes, he began taking questions; some were even about the book. He stayed talking to us for about an hour (maybe a little longer). I drank in every moment he was with us, just absorbed the feelings in the room. Though I didn't get to meet him, I felt honored to just be there. We were grateful for every one of those minutes he shared with us. When it was time for him to leave, he smiled at us and again lifted his hand. "Live long, and prosper." And he meant it.

do not always agree on the path that your life should take, it does not mean they love you any less. That true friendships are rare and are based on trust and mutual respect. While luck pays off it is best to be prepared through knowledge and hard work. When called upon it is necessary to put the needs of the many above the needs of the few or the one.

I will leave comments about the man behind the role to others who knew him best! To me he will always be Mr. Spock and in conclusion, I think Fire Fly actor Nathan Fillion said it best of that persona.

"I have always been and ever shall be your fan!"

While I have forgotten a lot of what was said, I never forgot the feeling of all those Trek fans being there because of our love for Leonard, and (who would have thought it?) a TV show that continues to influence us today.

- DJ Powers

I meet Mr. Nimoy at a Vulkan in Florida in the 1990's. He was promoting his comic book series. (the Pirmortals). Growing up a child of the sixties & seventies I watched TOS after school with my father.

I always felt like an alien, I never quite fit in anywhere & watching Spock go thru his struggle helped me cope. ( we later found out I was high functioning autistic). LLAP

- Victor Swindell

It's both easy and hard to put into words my thoughts for Leonard Nimoy. See Spock was merely words on a page, and a concept. Mr. Nimoy gave him life, and brought this man from Vulcan in to our lives on the small screen. I guess it was because he was different, that was the attraction. I like different. Star Trek touched many lives in different way. I know people who became Engineers (Scotty), Doctors (Bones), an like me Computer Scientist all be cause of Star Trek. I can't think of another TV show that have inspired so many lives. Thank you Mr Nimoy, your portrayal of Spock has influenced many of us. I shall me and always will be your fan.

## USS HEIMDAL CELEBRATES IT'S 31<sup>st</sup> ANNIVERSARY

By ADM Linda Smith

On April 11, 2015 the USS Heimdal based in Madison Heights, VA, Region One celebrated her 31<sup>st</sup>. anniversary as a Starfleet chapter with a huge party. The party was held in The Lounge at the Holiday Inn Downtown Lynchburg, VA. 41 people attended the party whose theme was KARAOKE NIGHT ON THE HOLODECK.

As people arrived they stopped by the Welcome Table, signed in, got a ticket for door prize drawings & a gift bag. Each gift bag contained novelties like zombie suckers & Ear Wax candy, a nose pencil sharpener, a Heimdal pencil, a finger trap, zombie eyeball that you could actually wear & a dog nose that you also could wear, plus other funny items. The dog noses were the hit of the evening.

After stopping at the Welcome Table guests entered The Lounge through an actual Holodeck grid made by Linda & Willy Smith.

CO Linda Smith welcomed guests, told everyone how last year's successful auction made it possible to add extra money

to each of the Heimdal's 10 adopted charities & send another local middle school student to Space Camp this coming August. She introduced the Heimdal's Executive Committee as each stood & pointed out that those were the people receiving the "Big Bucks" salaries from Starfleet. Everyone laughed, especially those on the Executive Committee. Linda pointed out that it is unusual for a Starfleet chapter to last so long & be continually & increasingly successful. She included that the anniversary party was

her way of saying "THANK YOU" to the Heimdal crew for all their hard work all year long.

The blessing was offered by Security Chief, Rev. Carl Davis.

A wonderful Southern Buffet dinner followed.

After dinner Karen Delano & Willy Smith gave a 45 minute Heimdal film presentation, which got many laughs & was enjoyed by everyone.

Drawings were held for 6 door prizes.

Jerry Conner, CO of the USS Yeager came from WV & brought an original painting of the Heimdal to add to the door prize drawings. It was lovely & the winner was so pleased.

Following the door prize drawings Karaoke DJ, Brandon Cyrus took over the program – KARAOKE NIGHT ON THE HOLODECK. Before anyone had a chance to volunteer to sing, Linda Smith, Willy Smith, Kenny Proehl, Chris

Thompson & Glenda Blanks took the stage & did a surprise rendition of the YMCA Song & Dance. They all were wearing the dog noses from their gift bags.

During the evening many people sang AND danced, including the DJ ... some serious renditions & some just plain funny.

It was a wonderful evening & a fantastic celebration of 31 on-going successful Heimdal years. Our adventure continues .....

Welcome to STARFLEET & Region One,

We are also known as First Fleet and we are the largest region of STARFLEET by members and total chapters.

First Fleet is composed of 8 states which are: Indiana, Kentucky, North Carolina, Ohio, South Carolina, Tennessee, Virginia and West Virginia.

Our region has 48 chapter and just over 1000 members to date. Some of these chapters hold face to face meetings while other choose to conduct their business via the internet, email, social media, and smartphones.

A complete list of chapters can be found at the regional website which is located at <http://www.regionone.net/R1>. Click the chapter button and the list will populate.

If you find a chapter you like, but are unsure how to join, then please contact our Regional Coordinator at [R1RC@regionone.net](mailto:R1RC@regionone.net) and they will be more than happy to assist you in making contact that chapter.
