- ◆ Promotions!
- ◆ Summit Photos!
- ◆ USS Heimdal Celebrates 32nd. Anniversary

Hello Everyone, welcome to the newest issue of Channel 1! I'd like to thank our Publications Officer, Kevin Plummer, for his efforts in improving regular communications within the region by keeping the First Fleet's newsletter up and running and reaching out to the membership for submissions. Please offer him as much support as you can and, as always, if you or your chapter have anything that you'd like to share with the region, an article, artwork or just an announcement, send it his way for inclusion in an upcoming issue.

Speaking of announcements and communications, I'd like to encourage all of our Commanding Officers and First Officers in Region One to continue to communicate information from the regional staff list and chat list to all of their crewmembers in their local chapters. We often have lots of great programs and opportunities for members within the region that are announced in our lists, (and in our newsletter, the Channel 01) that members in Region One need to be aware of. Especially with our chat and staff lists, the Commanding Officers and First Officers are our first point of contact between regional announcements and members on the local level. We depend on our XOs and COs to convey the information to their local memberships. Without your help, a lot of great positions go unfilled and a lot of opportunities are missed by very qualified regional members.

So please take the time to make sure that, if you read an announcement on a list or newsletter about a program or opportunity within the region, go ahead and share that with your fellow crewmembers on the local level. Your help will make everyone's STARFLEET experience that much more rewarding!

Finally, I'd also like to welcome aboard Ron Novak as our newest RDC Program Director! Ron has finished his training with Rey Cordero and is busy continuing to grow and develop what Rey has started. He is still reaching out to folks and getting new programs started up in the Regional Division Chief system. If you are at all interested in participating either as an RDC or as a member of a pre-existing RDC program, I encourage you to get in contact with him. Ron's email is: hazguy36@yahoo.com.

That's all for now!

Rear Admiral Scott Gibson

Vice Regional Coordinator

Program Operations

Region One

Get involved with the region talk with each other find out what other ships are doing. Let's get together for more than just the Summit and International Conferences.

Yes, I know it is a big and varied region but summer is coming and people will be traveling on vacations. Check to see what ships are in the area you are traveling in, when and where they meet drop in to a meeting or contact them to see if you can get together to talk or a meal. Contact them to see if there are sites to check out that are not as well known you can visit.

This year in Ohio the National Museum of the US Air Force is opening a brand new building, the fourth, in July the Neil Armstrong Air and Space Museum is holding a festival to celebrate the first moon landing it is a large event. Each and every state in the region has something to offer and crew members to meet.

Admiral Darlene Harper

Hello Region One,

The hunt for the co-treasurer is over. TJ Allen has been confirmed by the COs of the region to be the co-treasurer. We also have new RDC of Operations, Scott Osborne, and new RDC of Security, Larry Neigut. Ron Novak has taken the temporary position of Assistant RDC Director as he learns about being the RDC Director.

COs voted for 2017 summit bid at the Clifty Falls Inn, in Madison Indiana on June 9th, 10th, and 11th 2017.

Madison Indiana is set along the Ohio River in Jefferson County in Indiana, Registered a Historic landmark, the city has a State park, many shops, food, sightseeing, and recreational areas throughout the city. Some of the sites are the historical main street with it many shops, eateries, and river walk.

Clifty Falls State Park has 10 nature walks, a large outdoor swimming area, camping sites, and cabins, which overlook the Ohio river, Madison Indiana and the Kentucky shoreline from its' high perch within the state park.

Clifty Inn & Falls Restaurant has an indoor pool that is accessible to the handicap, large sun porch, nice sitting rooms and niches throughout the hotel, free internet access, bon fire pit overlooking the Ohio River, satellite television, tennis courts, and free parking.

UPDATED for REPOSTING June 9, 2016

Greetings,

I want to get everyone updated on IC 2016. First, we are having two theme for IC 2016. They are NASA and Star Trek's 50th anniversary.

The hotel reservations phone number for the membership is 888-233-9527 FREE FREE FREE. This is the hotel group reservations line and is the only number that should be called when making reservations. Also, when calling the Starfleet member needs to mention that they are with STARFLEET International Conference.

The hotel does not require a deposit to secure a room.

To make a reservation via website visit IC2016.com click on the Hotel link. On the hotel page click 'To book your rooms online click here' link and follow the directions. There are plenty of rooms left. Reservations close July 22, 2016.

Registration for IC 2016 will be \$35.00 per person, now until two weeks before the IC. Then the rate will be \$38.00. Registration for children 12 and under will be \$5.00 regardless of time of registration.

The program schedule and the concurrent sessions (panels) are about finished and will be on the website soon. We have twelve concurrent sessions planned and could add a couple more.

Our Charity for IC2016 is Space Camp and STARFLEET Scholarship Program. If you have items that you would like to donate to The "The Annual Marian Murphy Memorial Charity Auction", you can contact Warren Price at wormmy@aeneas.net We already have plenty of items to bid on so show me the money.

As part of IC 2016 activities, we will be having a STARFLEET video contest. It's a chance for Fleets chapters to shine and show what great actors they are (or at least that they are big hams!). Get out those video cameras and start filming. We'll be showing the videos at Opening Ceremonies and throughout the weekend and be giving Best Picture and Best Actor awards.

We will be selling T shirts and Polo shirts. You can now purchase them online at IC 2016 website. T shirts are \$20 and Polo shirts are \$23.

We are planning a video room where we will be showing Star Trek episodes.

We will be having two contests during the weekend of the IC. A Star Trek Trivia and a IC2016 trivia contest

We are working on some other events so stay tuned for announcements. One event will be a fifteen minute special tribute to Star Trek's 50th Anniversary right after the Banquet. All can attend.

Lastly, we have a Facebook page. <https://www.facebook.com/SFI-IC-2016-761568867217799/> So if you haven't 'Liked' our page please do. Each week a 'Bucket list' and Things you didn't know about Louisville, are posted on the page. Plus other information.

If you would like to volunteer to help, please let us know. We have need of a person that can do Internet Streaming. If you would like to volunteer please email Warren Price

If you have any questions, concerns or comments, please let us know.

Thanks.

Admiral Warren Price, CO, USS Providence NCC-71796

<http://www.ic2016.com>

Greetings members of STARFLEET,

It has been a few weeks since I addressed you, so I thought this was a good time.

The AB is still wrestling with the line-of-succession question, waiting for the pro-bono advice from attorneys at the North Carolina Center for Nonprofits (of which SFI is a member). It is not known when said attorney will be available, though VADM Jeff Victor (IG) and VADM Wayne Augustin (Pro-Tempore Chairman of the Board for the "CS Issue") are working on the issue. VADM Augustin was chosen to act as Chairman of the Board in the matter of determining whether ADM Westfall or RADM Woodell-Vitasek should be confirmed as CS for the remainder of the late FADM Killough's term due to potential conflict of interest.

VCS Woodell-Vitasek has put out a call for a new Membership Processing Coordinator/Primary Team after accepting the resignation of ADM Bran Stimpson. I want to thank him for his years of service, but a change was needed in that department. Until a new MP Coordinator and Primary Team is found, the secondary MP Team in KS will handle membership processing.

In all the craziness in the wake of the deaths of VADM Marian Murphy and FADM Killough, the announcement about the 2018 IC Bids fell through the cracks. ADM Tien, our IC Liaison, has put out a call for bids. and there's still a week to get them in.

Now, several here have asked what STARFLEET is doing to celebrate the 50th anniversary of Star Trek. While I'm sure many would disagree, I believe we already are. We celebrate every day we exist as a club dedicated to promoting the ideals espoused in Trek. Take a look around at all the aspects of our lives that Trek has influenced the creation of science fact from science fiction: cell phones, bluetooth technology, flat-panel displays, hand-held tablet computers, "universal" translator apps, holographic technology, and all the others that have brought the world closer together.

In addition to technological advances, Trek broke numerous cultural barriers - such as television's first interracial kiss - and used the futuristic setting of its story-lines to address various social and moral issues (like war and discrimination) and how they could be overcome.

That's only a fraction of what a short-lived series sparked. all in a mere five decades.

41 years ago, our innovation took the form of STARFLEET, the fan organization. We may have joined for different reasons, but each of us believed in the dream of a better future that Star Trek showed us. Even in our differences, we are stronger. Isn't that the lesson IDIC teaches us?

I don't think anyone should limit the ways in which we celebrate and commemorate 50 years of Star Trek. I believe that in our existence we celebrate the foundation of an ideal. How each of us chooses to renew that ideal is uniquely ours. So, to the whole of the longest operating Star Trek fan association, I ask - how are YOU celebrating the 50th anniversary of Star Trek? I'm sure that everyone here - especially our Chief of Communications - would love to hear about what you're doing.

Till next time!

Robert

Barry Jackson

Senior Treasurer

At the Region One Summit last month, I announced the 2015 winners of the Region One Sciences Albert Einstein Award for Most Frequent Submissions to Region One Science. These are CSOs and other officers who report regularly (at least once every quarter). A total of 18 officers from 15 ships submitted reports during 2015. Please join me in congratulating the following fine officers who were 2015 Einstein Award winners:

USS Columbia -- Capt. Julie Taucher (CSO) and Cmdr. Patrick Litton (Chief Astronomer)

USS Heimdal -- Adm. Willy Smith (CSO) and Capt. Michael Lewis

USS Jurassic -- FCapt Nancy Hall (CSO/CompOps)

USS Ohio -- FCapt. Janet Wagoner (CSO)

USS Renegade -- Comm. Janice Graham (CSO)

(USS Alaric also reported every month, but I'm the Alaric's CSO and I don't give myself an award.)

Also, the USS Heimdal's Capt Michael Lewis received an Albert Einstein Award - Special Commendation for exemplary service as ARDC and superb liaison with Science Departments of R/1 Ships.

Thank you science officers of Region One!

Richard

Admiral Richard Heim

USS Alaric CO & CSO, R/1 RDC Sciences, Starfleet Sciences Director
AlaricRH@charter.net

Thank you Region One for all the help you have given the Space Camp Fund.

We have enough to send one camper to camp this year and are well on the way to raising the funds to send one next year.

Thank you to the Summit auction for the big assist in raising funds for next year. It will take around \$1,200 to send a camper next year, we have increased the amount needed in case there is a price increase.

Again, we the Space Camp Committee thank you for all the help you have given us.

Admiral Darlene Harper

SOL III Award USS Bellerophon

1LT Sam Phillips recycled 29 lbs paper, 48 lbs glass, and 9 lbs aluminum cans.
 2LT Michael McCarthy recycled 40 lbs paper, 41 lbs glass, 12 lbs aluminum cans and 1.5 lbs card board.
 CDR Carol Dyl recycles 33 lbs paper, 56 lbs glass, 2 lbs cardboard and 16 lbs aluminum cans.

Let Me Help USS Bellerophon

- Unit donated 3 bags of cloths to local shelter in September 2015
- On 18 Nov unit members collected 51 cans of assorted food for the local Food bank donation for the holidays
- Chapter collected 187 Box Top for Education (2015)
- Chapter sponsored 4 children for the annual Angel Tree event.
- Chapter participated in the Toys for Tots campaign and collected 11 toys to donate

Sam Phillips – worked on creating flyers, seeking donations and delivering toys to the drop off for the Toys for Tots (2015) also helped out with donations and posting flyers for the annual Angel Tree Project (2015)

Michael Aronhalt- passed out flyers, seeking donations and delivering toys to the drop off for the Toys for Tots (2015) also helped out with donations and handing out flyers for the annual Angel Tree Project (2015)

Leonard Peffer Jr- passed out flyers, seeking donations and delivering toys to the drop off for the Toys for Tots (2015) also helped out with donations and posting flyers for the annual Angel Tree Project (2015)

Carol Dyl – Created the flyers for the Angel Tree Project and helped to wrap all the gifts and deliver them to the collection point

Garth Order of Tactic USS Bellerophon

Michael Aronhalt served in the Florida National Guard from January 1998-March 2001 and then went Active Duty with the 82nd ABN Division from March 2001-March 2004.

SOL III USS Freedom

David and Joel Richards reported recycling 23 lbs of aluminum cans, 76 lbs of glass, and 42 lbs of paper, 6 lbs of plastic

Thomas Lloyd Sr and Thomas Lloyd Jr reported recycling 12 lbs of aluminum cans, 39 lbs of glass and 43 lbs of paper, 5 lbs of plastic

Eddie Riddle reported recycling 13 lbs of aluminum cans, 43 lbs of glass, 3 lbs of card board, and 39 lbs of paper.

Robin Fleming reported recycling 54 lbs of paper, aluminum, plastic and glass and reported 11 hours of volunteer work at a senior center

Let Me Help USS Freedom

Chapter collected 421 box top/soup labels for education.

Chapter supported 5 children from the Ft. Bragg area Angel Tree

Jeff Gallus took part in a virtual 5 k run for The Moon Joggers. He ran the Live Long and Prosper 5k to benefit COPD and the Memory of Leonard Nimoy. This group has raised over \$10,000 for COPD

Jeff Gallus participated in a local Cancer walk at an area High School. Our team , The Off Notes raised only \$480. Our product was to sing Karaoke for a price , or stop someone from Singing for a larger price. The walk went all night and it was a nice tribute to all friends and relatives who have passed or survived cancer

Laura Callahan donated 1 box of books, 2 boxes of dishes and 4 large trash bags of assorted cloths, blankets and jackets

SOL III USS Gallifrey

2LT Carl Mogilka recycled 16 lbs paper, 31 lbs glass and 21 lbs aluminum cans.

Bob and Daniel Dyl reported recycling 52 lbs of various newspapers, magazines, glass, plastic and aluminum cans.

Gary, Emily and Zander Reynolds reported recycling 3 printer cartridges, and 61 lbs of recycling paper, cardboard, glass and aluminum cans.

Katie, Carlton and Brady Staples reported recycling 28 lbs of paper, glass and aluminum cans.

Carl, Kyle and Rose Mogilka reported recycling 57 lbs of aluminum cans, glass, paper and plastic.

Charles Phillips and family reported recycling 49 lbs of glass, aluminum cans, paper and cardboard.

Let Me Help USS Gallifrey

Chapter Collected 239 Campbell Soup Labels for Education

Chapter supported two children for the Angel Tree Project

Chapter Marines participated in the Toys for Tots

Bob Dyl finished the season as a volunteer baseball coach for children with disabilities.

Charles Phillips Sr spent over 16+ hours creating flyers, posted flyers and collected toy donations and delivered the donations to the drop off for the Toys for Tots.

SOL III USS George Washington

Leonard Peffer Sr and Alisha Peffer reported recycling 51 lbs paper, 17 lbs plastic, 27 lbs aluminum and 84 lbs glass and 5 lbs cardboard.

Lynn and Josh McClullan reported recycling 40 lbs paper, 13 lbs plastic, 19 lbs aluminum and 65 lbs glass

James Nelson and Kayla Nelson reported recycling 37 lbs paper, 7 lbs plastic, 16 lbs aluminum and 62 lbs glass

Ken Coots and Matthew Coots reported recycling 35 lbs paper, 9 lbs plastic, 13 lbs aluminum and 58 lbs glass

Eric Dyl reported recycling 42 lbs paper, 4 lbs plastic, 13 lbs aluminum and 39 lbs glass

Paul Mogilka reported recycling 31 lbs paper, 6 lbs plastic, 10 lbs aluminum and 46 lbs glass

William Robbins reported recycling 65 lbs of newspapers and 38 lbs of cardboard boxes

LET ME HELP USS GEORGE WASHINGTON

Chapter collected 489 Box-tops/Campbell soup Labels for Education

Chapter collected 15 toys for the Toys for Tots this year

Alex King completed 6 hours at the FD, and responded to 6 emergency calls

Alex King produced the chapter newsletter and created and maintains the chapter Facebook page

SOL III USS LIBERTY

Chapter visited the NC Zoo, the NC Aquarium, and a shell hunting expedition in Myrtle Beach

Dawn Riddle recycled 117 lbs

Jessica Reynolds recycled 108 lbs

Kay Coots recycled 82 lbs

Timothy & Ellen Dyl recycled 127 lbs

Christine Young recycled 28 lbs

Kathy McClullan recycled 96 lbs

Freddy and Rosalie Mogilka recycled 56 lbs

Brandi Dolan recycled 34 lbs

Let Me Help USS LIBERTY

Chapter collected 273 Campbell Soup Labels for Education

Chapter sponsored 1 child for the Angel Tree this Christmas

Brady McNulty spent about 8 hours with his local cub scout pack to help gather about 500 pounds of food for the local food pantry in early November

SOL III USS Panther

Douglas Kirk recycled paper, plastic, aluminum & glass to a total of 156 pounds

Mike Timko & Terri Leavitt recycled paper, plastic, aluminum & glass to a total of 123 pounds in April.

Mike Timko & Terri Leavitt participated in charitable ink jet cartridge recycling by sending 8 cartridges into Big Cat Rescue

Mary and Sara Llyod recycled paper, plastic, aluminum & glass to a total of 57 lbs

Amy and Bethany Richards recycled paper, plastic, aluminum & glass to a total of 40 lbs

Margie Coots recycled paper, plastic, aluminum & glass to a total of 32 lbs

Let Me Help

USS PANTHER

Chapter collected 357 Box Tops for Education

Chapter sponsored 2 children for our local mall Angel Tree. We bought several toys and clothing for a boy and girl ages 7 and 10.

Christopher Bayonet volunteered approximately 80 hours as a volunteer EMT

Christopher Bayonet volunteered 8 hours for teaching religious education

Megan Bayonet volunteered 8 hours for teaching religious education

SOL III USS HELEN PAWLOWSKI

Chapter Collected 586 Campbell Soup Labels/Box Tops for Education

Chapter visited the NC Zoo, NC Aquarium to learn more about nature and the earth

Miller family enjoyed the Missouri Botanical Garden's celebration of the 215th birthday of founder Henry Shaw; and the Garden's annual Lantern Festival.

Miller family did two significant paper and electronic recycling runs

Let Me Help USS HELEN PAWLOWSKI

Chapter donated 1 bag of cloths to a local church.

Chapter donated 40 cans of food to a local food bank.

Chapter sponsored four children at the local Angel Tree.

Chapter participated in the Toys for Tots which collected 17 toys this year

Miller family supported several community charity events including the Ronald McDonald Children's Charities and supported the 5th annual Peter Navarro Patriot BBQ at Lafayette High School, St. Louis, MO, benefitting Backstoppers

Millers also supported the 3rd annual Tour de Wellness, Chesterfield, MO. and supported the Disabled American Veterans through clothing donation.

Miller's clothing donation to the Disabled Veterans of America

Supported the annual "Pedal for the Cause" and annual "Glow Run", both on Sept. 27th.

Max Miller completed his BSA Eagle Scout project in late October and early November building a 65 foot brick walkway for a local Jewish temple and school in Chesterfield, Missouri

Supported the annual E-cycling Clothing and Toy Event at Chesterfield Mall, Chesterfield, Missouri, on Oct. 31st.

Supported the annual Route 66 Run on Nov. 7th, Eureka, Missouri.

Supported the 16th Annual Turkey Trot, Chesterfield, Missouri.

Donated used warm clothing to the annual Warner's Winter Warmup at Chesterfield City Hall.

Dave Miller has volunteered over 150+ hours as a volunteer with the Boy Scouts

Co-Chair IC 2016

*****Please cross-post for widest distribution*****

This is to announce to everyone that I have accepted Bran Stimpson's resignation as head of Membership Processing, effective immediately. Bran has served STARFLEET many years in Membership Processing, as well as other positions, and I wish him good luck in his future endeavors.

He forwarded all membership processing equipment and materials that were in his possession, on Saturday 09 May 2016, to the recently formed Membership Processing team in Leavenworth, KS. This team was established by Wayne, a few weeks prior to his death, in order to have minimal disruption in the mailing of membership packets.

The Leavenworth team, intended to be a secondary Membership Processing team, will become the primary processing team until such time as the new administrator can get their own team up and running. It has long been the goal of this administration to have multiple Membership Processing teams.

The PO Box in Denver will be closed and a forwarding order will be put on that address to the new PO Box, that CFO Linda Olson will open near her. This will speed things up, as it takes one more step/person out of the membership processing procedure

At this time, I would like to announce that there is a vacancy in the Vice-Commander of STARFLEET Office for a Membership Processing Administrator. This person reports directly to the Vice-Commander, STARFLEET, and is the point of contact for new and renewing memberships. This candidate must be at least 23 years of age. Applicants must be a member in good standing within STARFLEET and have been a member of STARFLEET for at least the last three years (uninterrupted). Applicants should have completed Officer Training School (OTS), Officer Command College (OCC) and Flag Officer School (FOS) to enable them to handle inquiries coming in from the membership.

Duties and Responsibilities:

- Setup and run a primary membership processing team.
- Oversee the coordination of all other membership processing teams.
- Process both online applications and paper membership applications.
- Maintain spreadsheet records for all new and renewing members, including but not limited to the data needed to process membership packets and track them.
- Provide weekly packet fulfillment lists.
- Oversee packet fulfillment including but not limited to providing addresses, certificates, membership cards, letters, and other items generated by member data.
- Provide monthly report to the VCS.
- Troubleshoot complaints including but not limited to lost packets, missing items, incorrect names, etc, as directed by the Help Desk or email.

If you are interested in applying for this position, please send a resume (both real life and Fleet related), along with a letter of intent, to me at vcs@sfi.org. Applications will be accepted until June 15th, with a decision being announced on that day.

In Service,

Robin

Commodore Robin Woodell-Vitasek

Vice-Commander, STARFLEET

775-379-5068

Hello Everyone,

I just wanted to encourage each of you to submit articles or reports in to the Channel One newsletter. We can't skip any opportunity to promote our programs to the region and this is a great way to reach the members and let them know what's happening and how to get involved.

We're about 6 days from the deadline. Please send submissions to Kevin @:

sfofficer.plummer@gmail.com

Thanks,

Rear Admiral Scott Gibson

VRC- Program Ops

Region 1

This past weekend Starbase Columbus held an event for the area science fiction clubs to get together to recruit and raise money for our charity project.

The event always honors one of the area sci-fi members this year it was held in the memory of our captain Vice Admiral Steve Harper and his main charity the Fire Fighters for Kids Toy Drive.

A recruiting booth was set up and we had a raffle to raise funds for the toy drive. Remember Christmas is just around the corner so please donate a toy or two to a local toy drive it will mean the world to the child who receives a toy that might not receive a toy.

Everyone is invited to meet us at in Dayton, Ohio at the Air Force Museum on June 11 for the opening weekend of the newest building. This building houses some of the Air Force One planes and the space age.

Admiral Darlene Harper

JAG Officer

USS Columbus

I have to apologize to the region for the delay of this issue.

What started off as a planned delay to allow for the CS candidates to get their nomination request letters out to the public turned into an unplanned delay due to medical necessity. I went into the local VA medical center for a scheduled office visit and ended up being transported to the nearest VA Hospital for a unscheduled 2 week vacation.

Rest assured, I am fine now and will endeavor to remain so that this does not happen again.

Please remember that the submissions for the next issue are due on the 25th of this month.

Again, I am sorry for the delay.

Capt Kevin Plummer,

Region 1 Publications Officer

I sit here at my keyboard to write this article and I have so many things buzzing around in my head. So to clear out that sometimes scary and overfull place in my head I'm going to share some of those things with all of you kind folks.

I just returned from the Region One summit . It was great to see old friends and meet some new ones. It was also a reminder that some of those old friends are gone from our sight but remain in our heart. We also mourned the loss of our Fleet Admiral. We all grieve in different ways and it is good for my soul to see how many times in STARFLEET we turn our grief and pain into something constructive and positive. At this summit we sent money from our auction and raffle to scholarship funds and space camp. Many times when we lose someone we only focus inward but in this organization we also manage to look outward and reach out to others. It is an amazing example of Trek's "Let me Help" philosophy. It is so easy to disappear into our pain and forget we are still part of the rest of the world. However if we make the effort to reach out to others ,to remember our lost friends in a positive way ,we find our lives are richer, our grief diminished just a little by doing so. We carry on with the things they cared about and we help others to achieve their goals ,we have kept an important piece of our loved ones alive in our hearts.

I applaud all who can reach out and continue to care in the face of pain and grief.

At this same summit I was happy to see a group of old friends honored for their hard work and dedication. For many years I was a member and CO of the USS Star League and that crew became like family to me. We shared many good times together and helped each other thru some tough times. They are currently celebrating their 25th anniversary and it was very appropriate that their current CO Carnell Eubanks was named CO of the year and that awards also went to Peggy Eubanks, Jana and Bob Sandarg and Tammy Smith. (I hope I didn't miss anyone but they all know my memory isn't all that great.) This crew is one of the region's hardest working groups and I wish them continued success. Even though I'm no longer an official member of the Star League they will always be a part of me. I hope they throw themselves a great anniversary party and party hard ,remembering all the members who have come and gone over the years. They demonstrate how many different people can combine for a greater good.

Congrats to my old friends on the Star League.

I'd also like to mention how great it was to get to know some new friends from the USS Robins and their CO K.C Finch. They are one of the newer ships in the Region One family . It was great to see K.C. win the Archer award. I look forward to getting to know the crew better and working with them on future projects.

During the summit I got to see folks from the Appomattox, Heimdal, Hornet, Revelation, Benu, Alaric, Providence, Arizona, Sangamon., Robert de Bruce, Nikola Tesla, Liberator, Helen Pawlowski, Renegade and the John Paul Jones (commissioned at summit) and others who I don't know their ship assignment. I never thought back years ago that I would know so many wonderful people from so many places. I'm honored to be able to serve in a small way this Region of wonderful people .

In this election time (both regional and national) and in fact at anytime ,let us all remember that though we may disagree on many things and the methods of achieving goals, we are family (as was stated several times at summit) dysfunctional at times but still family.

Learning to forgive each other and love each other through the times we disagree or suffer pain and loss is a sign of emotional maturity and growth. Only by embracing our differences and being willing to see each other through the eyes of the other can we truly understand and appreciate each other.

Remember IDIC. We are stronger in our diversity.

Thanks for letting me unload part of the brain overload. The buzzing is quieter now.

Note: I will be having knee replacement surgery in June so please hold good thoughts and prayers for me.

REMEMBER THE COUNSELORS OFFICE IS AVAILABLE TO SERVE YOU.

ALSO THE CHAPTER CARE GROUP IS ALSO AVAILABLE TO SERVE.

Rear Admiral Barbara Lariscy

RDC Counselor Corps

USS Heimdal Celebrates 32nd. Anniversary as a Starfleet Chapter

The USS Heimdal didn't have a regular meeting in April but instead celebrated her 32nd. Anniversary as a Starfleet chapter with a HUGE party. 55 people attended the event that was held in the ballroom at the Holiday Inn Downtown Lynchburg. Members, former members & Heimdal friends came to share the moment & Starfleet members, John & Mary Kane came from NC to be there.

The party theme was "Back in Time with Elvis" & was supposed to be a new Heimdal Holodeck program.

People were greeted at the Welcome Table by Bonnie Davis, signed in & received a gift bag. Then they moved on to a second table watched over by a life-size stand-up of Captain Picard where an artist painted Star Trek logo & insignia glitter tattoos on hands, arms, faces & chests. It was such a fun addition right at the beginning of the party.

Everyone enjoyed their gift bags. Each gift bag contained a finger trap, bag of "Don't Eat the Yellow Snow" & "Unicorn Poop" jelly beans, an animal nose, Ninja Turtle mask, goofy teeth, candy & too many funny items to remember. The gift bags are always so much fun.

You passed a life-size stand-up of a talking Elvis when you entered the ballroom. Motion activated, the Elvis stand-up said, *"Hi, I'm Elvis Presley," "Thank you for letting me talk to you," & "Thank you very much."*

The evening began with a Meet & Greet followed by the "Welcome" by Linda Smith, the Heimdal's CO. The blessing was offered by Heimdal's Chief Chaplain, Tim Hazlett. Tim & his wife had come from Chesapeake, VA for the event. The blessing was followed by a delicious Southern Buffet dinner. The buffet table was flanked at either end by life-sized stand-ups of Archer & Riker.

Following dinner everyone was treated to Heimdal videos, which were funny & also a 2015 chapter retrospective. The videos were presented by the video team, Karen Delano & Willy Smith. Linda gave out trophies to Karen & Willy & to the Heimdal members who compromised their dignity to "star" in the videos.

Following the videos, everyone was treated to a 90 minute performance by Elvis Tribute Artist, Taylor Rodriguez. He is 18 years old, very respectful of Elvis as an artist & phenomenally talented. He sang many songs, joked & walked into the audience giving special women an "Elvis scarf" & kissing them on the cheek. EVERYONE had a wonderful time & enjoyed Taylor's performance. Taylor had a tip jar & all donations made to the jar went to Saint Jude's Children's Hospital. He donates most of what he makes to charity. He did a most superb job of taking us "Back in Time with Elvis." What a Holodeck Program!

Following the entertainment, Taylor helped draw tickets for 5 door prizes & the evening ended with the message that "Our Adventure Continues"

What a FANTASTIC celebration ...

USS Heimdal Celebrates 32nd. Anniversary as a Starfleet Chapter

Microgravity at NASA Glenn and Space Center Houston
Fleet Captain, Nancy Hall
CO, USS Jurassic

This year the NASA Glenn Research Center (GRC) in Cleveland, OH celebrated its 75th Anniversary by hosting an Open House on May 21-22, 2016 to the general public. As an employee of GRC, I helped out at the open house by staffing an exhibit at the Zero-Gravity Facility, home to world's largest facility of its kind that provides a weightless environment for a duration of 5.18 seconds. (<http://facilities.grc.nasa.gov/zerog>). At this facility, I conducted demos showing the public what is meant by microgravity and freefall.

In early February 2016, I was at Space Center Houston in Houston, TX attending the Space Exploration Educator Conference where a colleague and I were giving a talk to educators on Demonstrating Microgravity in a Classroom.

Since both of these events involved me talking to the public about microgravity, I figured I would submit part of a monthly report I sent to the R1 RDC for Science where I explained what is meant by microgravity. He thought it was a great summary and I figured this would be a great way to let others know about what I do at NASA and what is meant by microgravity.

Microgravity is where the effects of gravity are reduced and it appears like there is no gravity but that is not really true. In microgravity, one is actually in a freefall state or literally falling around the Earth, which is why astronauts and other objects float on the International Space Station or the space station. Most people do not realize that astronauts still experience about 90% of Earth's gravity while on the space station. The space station is only 200 miles up and if you think about how far that distance is within your state and then compare your state to the US, you will see 200 miles is small. Now think of that 200-mile distance as being placed vertically on the globe, then you can see how you are almost still on the surface of the Earth compared to the size of the Earth. So now think about what happens when you drop something, gravity causes it to fall. And if have a baseball and you throw it, it still falls but it follows a curve before it hits the ground. Now if you throw it harder, it will travel further horizontally while continuing to curve due to the Earth's being round but it will still eventually land on the ground. Well, if I could throw the baseball at 17,500 miles per hour that ball would continue to "fall" around the Earth and never hit the ground. That is what is happening to the astronauts and everything on the space station, they are at the right speed and are literally falling around the Earth. So when you are falling, you don't "feel" the Earth's gravity because you are falling at the same rate that gravity is pulling on you so you are weightless or in a freefall state. You can experience that same freefall environment while going over a hill on a roller coaster, if you are on a swing, going over a small hill in a car or when the elevator starts its motion going down. It's a very cool concept.

Anyway, while at Space Center Houston, my colleague and I attended a keynote presentation by astronauts Kjell Lingren, Mike Foreman and Alan Bean (the 4th person to walk on the moon!). We also had a picture taken with Astronaut Kjell Lingren. The photo was taken in front of the Shuttlecraft Galileo, the actual model that was used in ST:TOS Galileo episode, that was restored and is now part of the Space Center Houston exhibits.

At GRC, I manage several microgravity experiments where I lead a team of engineers who design, fabricate, build and test these experiments to meet the goals of researchers doing studies in the area of fluid physics. These experiments eventually fly on the space station where the results (both data and images) are downlinked and then the researchers can analyze them and learn more about fluid behavior in microgravity in the hopes of improving things on Earth.

From Left to right: Dennis Stocker, Astronaut Kjell Lingren and Fleet Captain Nancy Hall (CO, USS Jurassic). Behind us is the Galileo Shuttlecraft that was used in the ST:TOS episode, Galileo
